

POLITICAL AND CONCEPTUAL FRAMEWORKS EXPERIENCE

We have worked with national and international public institutions, as well as in the academy and in social organizations to define political and conceptual frameworks in a range of fields. Notable among these are the field of economics (feminist economy, globalization, development and post-development), public policies (making gender perspectives transversal and promoting specific equality policies), questions of care (social organization and economy of care), and methodological questions (development of tools for feminist research and women's participation).

Economy

- Development of political and conceptual frameworks in the field of feminist economics (2000-2018). See [Perspectivas feministas en torno a la economía: El caso de los cuidados](#) (Feminist Perspectives on the Economy: The Case of Care), CES, 2006 and [Subversión feminista de la economía. Aportes para un debate sobre el conflicto capital-vida](#) (Feminist Subversion of the Economy: Notes towards a debate on the conflict between Life and Capital), Traficantes de Sueños, 2014, 2015 and 2017.
- Support for OMAL-Peace with Dignity in incorporating feminist perspectives in their work on the impact and alternatives to trade and investment agreements (2017-2018). See ["How to read a free trade agreement"](#) (DAWN, 2018) and ["Prologo"](#) in *Mercado o Democracia. Los tratados comerciales en el capitalismo del siglo XXI* by Gonzalo Fernández (Icaria, 2018).
- Independent research on globalization, post-development and de-growth in collaboration with academic and non-academic organizations. Among these: Research&Degrowth, Asociación Economía Crítica, Economists without Borders, etc. See ["Prólogo"](#) in *Decrecimiento. Vocabulario para una nueva era* (Icaria, 2015) and "Economía feminista" in the [Manual de corrientes heterodoxas](#) (Economists without Borders, 2017).
- Support for INSTRAW-UN Women in defining an analytical and political framework for understanding the relationship between migration and development from a gendered perspective. See [Crossing Borders II:](#)

[Migration and Development from a Gender Perspective](#) (UN-INSTRAW, 2008).

Public Policy

- Support and mentoring in the development of strategic actions within the Office for Equality of the Regional Government of Gipuzkoa (2015) in the 2nd Regional Plan for the Equality of Men and Women. Work on making the Plan's approach transversal, including different departments, and on proposing guidelines for ongoing work in the field of "Broadening our View".
- Creating a political-conceptual framework for public policies promoting equality in the 2nd Regional Plan for Equality, Regional Government of Gipuzkoa (2012). See working paper series on feminist debates on [Life Sustainability, Care & Economic and Labour Policies](#).

Care

- Development of conceptual and policy frameworks regarding the social and economic organization of care for various projects within UN-INSTRAW and the UN-Women Training Centre (2008-2017). See [Global Care Chains: Towards a Rights-Based Global Care Regime?](#) (UN-Women, 2010); *Why we care about care* (UN-Women Training Centre, 2014) and [An Essay Collection on the Care Economy: Three Years of Collective and Global Learning about Care](#) (UN-Women Training Centre, 2016).

Methodology and Research

- Consulting on methodologies and tools for feminist research for CEAR Euskadi (2017-2018) in the project "Protecting those who defend: the right to asylum and temporary protection as tools for social transformation"
- Coordination and mentoring in methodologies for the Donostia Foundation (2015-2016) in the project "[Herri zahar, andre berri](#)", a project that reflects on the participation of women in local traditions and cultural practices in the

Basque Country: project design, mentoring and group facilitation, creation of summary document and website architecture.
