

## **POLITICAL IMPACT**

We have accompanied a diverse range of organizations in processes of reflection and in generating tools for political advocacy in the following fields: globalization and development models, social organization of care, equality and international solidarity.

### **Globalization and Development Models**

- Mentoring within the project [“The Boomerang Effect in Free Trade Agreements: feminist perspectives on the TTIP and perspectives from the Global South”](#) (Peace with Dignity 2017-2018) to include an emphasis on the sustainability of life in analyses of the new wave of trade agreements and the political response to these agreements.

### **The Social Organization of Care**

- Contributions to the advocacy campaign regarding domestic employment and how care is organized in society in the projects “Constructing Networks: Latin American Migrants within Global Chains of Care” and “Strengthening the Quito Consensus on the Empowerment of Women” (2008-2012, UN Women). See [“Proposal Pamphlet: A Fair Place for Domestic Employment and Employees”](#) and the [presentation](#) of this pamphlet.
- Participation in a [Popular Tribunal](#) on the right to sustainable lives, and the preparation of an expert [report](#) on the right to care and on fair, equal and co-responsible systems of care.

### **Equality**

- Participation and facilitation of debates within the feminist and women’s movements to prepare the 2<sup>nd</sup> Regional Plan for Equality by the Gipuzkoa Regional Government (2012). See the documentary about the process [here](#).

- Facilitation of capacity-building workshops in the project “The Social Situation of the LGBT Migrant Population in Spain, from a Gender and Human Rights Perspective” (2011, UN Women).

### **International Solidarity**

- Participation in the research project “Processes of Advocacy and Mobilization and the Tools They Use: Analysis of the Experience of Various Basque NGOs” (2015-2016 Basque Agency for Development Cooperation)
- Facilitation of workshops to help feminist and women’s organizations in Latin America and the Caribbean include perspectives from feminist economics in their political activities.
